

Abrasive Wheels Training

To provide delegates with a thorough understanding and/or the hazards associated with the use of abrasive wheels and to comply with the Provision and Use of Work Equipment Regulations (PUWER) in the safe mounting of abrasive wheels and discs on portable machinery.

Training Course Details

Duration: 1/2 Day

Who Should Attend ?

This programme is designed for any person who may be required to use an abrasive wheel in the workplace or requires familiarisation with the associated regulations.

Course Content

- Legal requirements and responsibilities.
- Nature of hazards and identification of causes.
- Safe work area.
- Selection of correct machinery and personal protective equipment (PPE).
- Method of marking, storing, handling and transporting.
- Storage, checking and use of discs.
- Machine checks.
- Mounting and dressing.

By the end of the course, the delegate will:

- Understand the legal requirements and their responsibility for the safe use of abrasive wheels.
- Identify a potential hazard and its reasonable foreseeable risks.
- Select the appropriate machinery and PPE required for the work being undertaken.
- Select appropriate safety equipment that may be used and carry out appropriate pre-use checks.
- Be able to correctly mark, store, handle and transport abrasive wheels and any ancillary equipment such as discs.
- Conduct a practical exercise using the appropriate safety equipment, in a safe and efficient manner.

Additional Information:

Delegates attending this course should be 18+ years and be physically and mentally fit to withstand the rigours of training.

The content of this course includes awareness of periodic examinations of equipment. The course does not provide full training in maintenance of equipment. Additional training relating to this subject may be of benefit to delegates (further information available upon

request). For training held at your own location please ensure you make available a classroom suitable for the number of delegates attending, with a 240v power supply. Please ensure the practical area is free from harm, suitable for training and that it has been risk assessed.

Qualification Including Duration:

Upon successful completion of the course, each successful delegate will receive a nationally recognised certificate, valid for 3 years.
