

# CITB Temporary Works Awareness

## Course Objectives

The course will provide the delegate with a basic understanding of what constitutes temporary works, along with planning, work issues and management processes. It assumes limited or no detailed previous knowledge of temporary works so is a great course for learning the basics.

It is supported by the Temporary Work Forum, CECA, Build UK, HSE and FMB.

## Workshop Content

The workshop will cover:

- What constitutes temporary works, how they used, their safety critical importance, common temporary work issues and the temporary works management process
- Update on the latest publications and issues relating to temporary works
- Support delegates understanding of common temporary works issues
- The management process for temporary works
- Understanding the other roles and responsibilities involved in the temporary works process

Successful candidates will be awarded the Site Safety Plus CITB Temporary Works General Awareness Training Certificate (TWGATC). This certificate will remain valid for 5 years.

**Duration:** 1 day
