## City and Guilds (6156) – New Roads and Street Work Act Supervisor Units

### Who should attend?

Supervisors responsible for the monitoring of Operatives working on the Highway.

Street Works Qualifications (made up of individual units of competence) provide routes to registration or re-registration (required every 5 years) on the Street Works Qualifications Register (SWQR) as required under the New Roads and Street Works Act 1991.

### Course Aim

To supply candidates with the skills and knowledge required to monitor work which is to be completed to the required legal standards.

This 5 day course covers Supervisor Units 001, 010-014 and 016:

- **Unit 001** Location and avoidance of underground apparatus
- **Unit 010** Monitoring signing, lighting and guarding
- **Unit 011** Monitoring excavation in the road/highway
- **Unit 012** Monitoring reinstatement and compaction of backfill materials
- **Unit 013** Motoring reinstatement of sub-base and road-base in non-bituminous materials
- **Unit 014** Monitoring reinstatement of bituminous materials
- **Unit 016** Monitoring reinstatement of modular surfaces and concrete footways

**Please note** that Unit 015 (Monitoring reinstatement of concrete slabs) is not covered during this course but can be provided as an additional single unit course.

### Assessment Procedure

The candidate will participate in a number of observation exercises. After successful assessment, completion of the relevant registration will be made with the awarding body.

### Duration

5 days

### Course Cost

£810.00 + £121.00 (books + certification) per candidate (Units 001, 010-014 and 016). This includes training, assessment, registration and certification with City & Guilds, registration with the Street Works Qualification Register and an SWQR ID Card.
